

appear and trouble multiply if the car is kept running when adjustments are required.

When a car has been tuned up to perfection and it is running perfectly, remember that if always kept at the same ideal condition, it will always operate with equal satisfaction. Therefore, when a car fails to respond as it should, the cause if not the result of a mechanical break, is due entirely to some condition of neglect in care or adjustment for which the owner or operator is responsible.

Satisfied Owners' Free Inspection Service

To facilitate constant and unfailing service of Maxwell Cars and to eliminate unnecessary repairs caused by lack of experience or skill in operation, we have instituted a Free Inspection Service for all owners.

The infrequent difficulties in cars of today are generally due to neglect of unnoticed minor adjustments and can be avoided by occasional inspection and instruction as to proper adjustment.

For one year after date of purchase, a Maxwell owner may take his car to the Maxwell branch or dealer once a month, if necessary, for a thorough inspection without charge.

By the use of our Free Inspection Service, car troubles and repair expense are reduced to a minimum.

This monthly inspection service is in addition to the Company's standard guarantee of material and workmanship, as published in our catalogue.
